

HORNBECK OFFSHORE OPERATORS, LLC

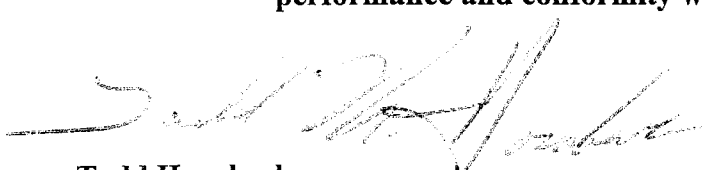

Service with Energy

Environmental Management System Policy Statement

TO ALL COMPANY EMPLOYEES, CONTRACTORS AND CUSTOMERS

We shall remain committed to our Environmental Management System and conduct our operations in an environmentally sound manner by:

- **Assessing and managing the environmental impact of our operations.**
- **Committing to resource and energy conservation, waste minimization and pollution prevent programs to protect natural resources and the marine environment.**
- **Complying with applicable environmental laws, regulations, and other requirements.**
- **Ensuring that environmental, energy and resource management considerations are an integral part of the management process for all business activities.**
- **Enhancing employee awareness of environmental programs and policies and providing them with continuous environmental management training.**
- **Responding to employee, customer, vendor, contractor and community concerns regarding environmental aspects of our operations and educating all parties on our environmental management program.**
- **Setting quantifiable environmental objectives and targets that result in continuous improvement of our program.**
- **Requiring a commitment to environmentally responsible operations from customers, vendors, contractors and third party personnel.**
- **Assessing and reporting on the status of the Company's environmental performance and conformity with this policy.**
