Plan Acceptance with dresser couplings.
ROOT CAUSE: This seems to be an oversight on the ABS Regulations.
CORRECTIVE ACTION PLAN: Company will be repairing these vents at the next shipyard visit. The Lead Auditor has found this to be an oversight issue and is in the process of addressing these and other findings in a Fleet Safety Bulletin to raise awareness of the crews and shoreside support.

<input type="checkbox"/> Cargo High Speed Craft	<input type="checkbox"/> Gas Carrier	<input type="checkbox"/> MODU	
Gross Tonnage: _____	Year of Build: _____		
Builder Name: _____	Hull Number: _____		

Instructions for filling out this form

IMO Ship type:

As defined in SOLAS Chapter IX, Regulation 1.

Class Number:

Identification number assigned to the vessel by ABS.

Audit Type 1:

This depends on the contract signed with ABS and will determine the scope of audit to be conducted. This information is used to identify an auditor qualified for the audit.

Should you have signed an ISM only contract then you only need check "ISM".

Should you have signed an ISPS only contract then you only need check "ISPS".

Audit Type 2:

If your contract also includes the ABS SQE Notation, then please additionally check the notation that you are pursuing (i.e., S, SQ, SE or SQE). This information is used to identify an auditor qualified for the audit.

Please note that should your contract cover SQE certification then you may not opt out of this requirement by choosing an ISM only audit.

SEC Notation incorporates all the requirements of the ABS Guide for Ship Security.

Survey Status:

If the ship to be audited is not ABS Classed, then it is a prerequisite of attendance that the auditor receives, prior to commencing the audit, a fax copy of the current survey status directly from the applicable Classification Society.

General Comments:

Wherever possible, please provide at least one week's notice of an intended audit.

Please ensure that the selected auditor is provided prompt notification of any alteration of the ETA and/or ETD.

For ISM/SQE Audits:

1) At the completion of the audit a copy of the audit report, including any Corrective Action Requests (CARs) and Observation, will be left onboard with the Master. A copy of this report together with the corrective action plan to any CARs must be maintained onboard so that they may be closed at the next audit.

2) A corrective action plan must be forwarded to the auditor within one month of the audit. Once accepted by the auditor, this plan must be implemented within three months of the audit completion. Please note many plans are not accepted on first attempt and it is therefore prudent to submit the corrective action plans at the first available opportunity.
